

Unconditional offers

Should you accept one?

- You would have accepted the place if they had given you a conditional offer?
- Do you have a better university available to you?

Unconditional offers

If you accept one, getting good grades is still important!

- Your Sixth Form grades will always be relevant – work placements, jobs, promotions
- You may have a change of mind
- Success breeds success
- You owe it to yourself

Conditional offers

- You choose a Firm and Insurance place and reject the others.
- Your Firm choice is the university you really want to go to. It will have higher grades than the Insurance.
- The Insurance place is a university you would still want to go to (hopefully any of the remaining offers), but crucially has lower entry requirements and therefore is a backup.

THERE MUST BE A CLEAR GAP IN GRADES!!!!

- The grades for your Insurance offer should be obtainable, even if the summer doesn't quite go to plan.

Before making a final decision...

- Make sure you have discussed it with your form tutor.
- Make sure you have a clear grade gap between your firm and insurance choice.
- Make sure the grades are obtainable!

In most cases, you have until 1st May to make a decision
