Convert	to:						
WMV	3						
Preset:							
WMV2	Generic	4					<b>-</b>
Output F	Folder:						

- 1. Start WinFF. (In school, this should be under **ICT & Business**. Click **OK** at any error messages that pop up.)
- 2. Click on the **Add** button and select the file(s) you want to convert.
- 3. On the **Convert to:** dropdown list, scroll to the bottom and select **WMV**.
- 4. On the **Preset:** dropdown list, select **WMV2 Generic**. (You might get another error message. Just click OK again to ignore it.)
- 5. Click the ... button next to **Output Folder** and select where you want the converted file to go.
- 6. Click the **Convert** button.
- 7. Watch the console window do its thing. Wait for it to finish.
- 8. Your file(s) should now be converted.
