

> EXPERIENCE WARWICK

Y12 SUMMER SCHOOL

Tuesday 21st - Saturday 25th July 2015

About the Summer School

The **Experience Warwick Y12 Summer School 2015** offers you a real opportunity to experience what University is all about!

You will attend lectures, seminars and group research sessions in subjects you are interested in studying at degree level, and see what it is like to study as a first-year undergraduate student.

Experts from different areas of the University will answer all of your questions and we have a range of Advice and Guidance workshops to build your confidence and your knowledge of applying to universities.

You will get a taste of student life at a leading university by taking part in social activities and by living on campus in our halls of residence with our student ambassadors who are current students at the University and will lead your group.

The Summer School closes with a Gala dinner where prizes are given for the group challenge that takes place throughout the Summer School.

> **"This Summer School has been the best one I have been to, and I've been to many!"**

The Summer School will motivate you to aspire to, and achieve, a place on a university course that matches your needs and interests; as well as encouraging you to aim for the most competitive courses at the best institutions.

Accommodation in halls of residence, activities, excursions, meals and transport during the residential will all be provided by the University free of charge.

Book your place now!

> "It was great! We got to meet lots of academics and student ambassadors."
