

APPRENTICESHIPS DAY

23 AUGUST 2017

Are you aged over 14 and interested in a career in engineering? STFC apprenticeships offer up to 4 years paid training in electrical, electronic, mechanical and software engineering.

From building particle accelerators to testing satellites our engineers and technicians make science happen.

Join us on Wednesday 23 August 2017 at the Rutherford Appleton Laboratory in Didcot, Oxfordshire to meet our current apprentices, find out what we do, and try your hand at a range of activities.

Registration essential
