

Measuring Happiness

Peter Adamson

Tuesday 12th January 7.30pm

Wallingford School Library, St George's Rd

What makes you happy and how could we measure it? Countries like the UK have used things like how much money we all have as a way of measuring wellbeing. But after a certain level of income, what really makes us happy? This talk will look at how researchers are helping governments to measure and compare how happy we all are.

Join us at **Wallingford School Library**, above the Sixth Form Centre, on St George's Road, Wallingford, OX10 8HH. All meetings are FREE and very informal. They are aimed at non-specialists and there is always plenty of time for questions and refreshments. Doors open from 7:00pm.
