

Why You Should Love Wasps

Seirian Sumner, University College London

Tuesday 28th March 7.30pm

Wallingford School Library, St George's Rd

Everyone loves bees: they're cute, cuddly and provide a pollination service on which our health and happiness depends. No-one loves wasps, the maligned gangsters of the insect world. Seirian Sumner's mission is to make you think differently about the insects with which you fight at summer picnics.

Join us at **Wallingford School Library**, above the Sixth Form Centre, on St George's Road, Wallingford, OX10 8HH. All meetings are FREE and very informal. They are aimed at non-specialists and there is always plenty of time for questions and refreshments. Doors open from 7:00pm.
