

The Harlequin Ladybird & Other Aliens

Helen Roy

from The Centre for Ecology & Hydrology

Tuesday 21st January 7.30pm

Wallingford School Library, St George's Rd

The harlequin ladybird, *Harmonia axyridis*, arrived in the UK in 2004 & spread at more than 100km per year. The fascinating story of this alien invader is being revealed, through observations provided to the UK Ladybird Survey by people across the UK. The ecology of the harlequin ladybird provides an insight into invasion biology. Come and find out what lessons we have learnt from the harlequin ladybird.

Join us at our **new venue, Wallingford School Library**, enter via the Sixth Form Centre, on St George's Road, Wallingford, OX10 8HH. All meetings are FREE and very informal. They are aimed at non-specialists and there is always plenty of time for questions and refreshments. Doors open from 7:00pm.
